

Class of 2022 Celebrating GCSE Accomplishments at St Mark's School

Judging by how hard they worked during their time at the school we had exceptionally high expectations of our GCSE Class of 2022; today they celebrated the grades they had worked so hard to achieve.

Whilst we are proud of all of our students' achievements, the following students deserve recognition for achieving top grades across a range of different subjects:

- Jeff B who achieved the top grades of 8-9 across a range of subjects, including grade 9s in Mathematics and Science
- Harrison C who achieved top grades 7-9 across a range of subjects, including a grade 9 in Mathematics and grade 8s in Science
- Kun Jun P who achieved top grades 7-9 across a range of subjects
- Gabriella T-B who achieved top grades 7-9 across a range of subjects
- Viki A who achieved top grades 7-9 across a range of subjects, including a grade 8 in Mathematics and grades 9/8 in Science
- Bertie R who achieved top grades 7-9 across a range of subjects

In total, a quarter of all grades were grade 7 or above, across subjects.

These exceptional grades follow on from a stunning year for the school in which it was visited by both Ofsted, and SIAMS (an inspection focused on the impact of the Christian vision on pupils and adults within the school community). Both of these inspections resulted in secure 'Good' gradings in the new, challenging frameworks.

The school's vision is geared around promoting self-worth in students to inspire them to live well, achieve their goals and be a force for good both in school and the world beyond. Our Year 11 Class of 2022 have proved, unequivocally, that the school's vision is alive and kicking!

The school's Headteacher, Barnaby Ash, commented, "We are immensely proud and humbled by our Year 11 students' achievements. They leave an amazing legacy and blueprint for success, for younger year groups in the school. I would like to thank all of our staff for their hard work with the students throughout their time at the school; they have been incredible in inspiring and supporting them to achieve their absolute best. Great credit should go to our Year 11 parents too, who have provided unstinting support to them, and the school throughout. Given the students' mindsets, we know that they will go on and achieve great things in the future. Our Class of 2022 deserve great credit for their outstanding achievements."
